DuraDECOR is a decorative paper treated with melamine resin, thermally pressed, and permanently fused onto a particle or fiber wood-based panel on both front and back faces, resulting in a durable and resistant decorative panel.

MAIN APPLICATIONS

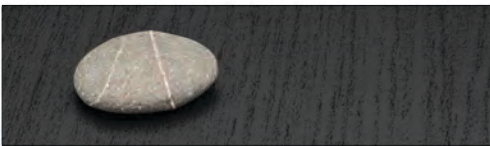

- DuraDECOR is a durable option for horizontal and low-impact vertical interior applications, such as:
- Kitchen and Bathroom cabinets
 - Closets, shelving, and storage
 - Home entertainment centers
 - Office furniture
 - Door core
 - Wall paneling and built-in casework
 - Store Fixtures and displays
 - Furniture and woodworking for hospitality and healthcare facilities.

FEATURES & BENEFITS

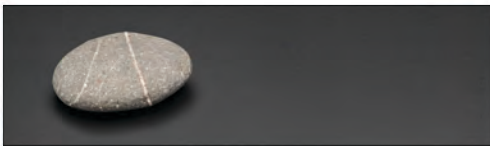

- Cost-effective option for applications where veneer or solid wood are fragile or costly
- Ready to use without the need for additional finishing
- Excellent machining characteristics
- Highly scratch- and-wear-resistant
- Consistent and uniform appearance
- Easy to clean with household cleaning products
- Waterproof faces
- Resistant to abrasion, rubbing, impact, and knocks

TECHNICAL SPECIFICATIONS

	Format	Thickness	Duramar Thickness Tolerance Average
Particleboard	4X8 ft. (49 x 97 inch. / 1.22 x 2.44 m)	From 3/4" (19mm) to 1 1/8" (28mm)	±0.0042"/ ±0.2784mm
MDF			±0.0064"/ ±0.1615mm

- For other panel sizes and thicknesses, please get in touch with your sales representative.
- Thickness Tolerance from target range values are defined by each wood-board supplier. For specific information, please contact your sales representative.
- Upon request, we can produce made-to-order in various textures and front-and-back side combinations of decórs.
- Matching edge banding is available (and recommended) to protect exposed panel edges during fabrication for end-use applications. All Duramar designs are offered in various thicknesses by specialized manufacturers. For more information, please contact your sales representative.

About Duramar

Duramar is the only TFL—Thermally Fused Laminate and Polymer Laminate panel manufacturer in Southern California. We have an in-house production line and supply the furniture, cabinet, and interior architectural woodworking industries.

We partner with select global suppliers to provide high-quality products from responsibly managed forests. Our products offer a smooth and even surface and a low-abrasive core that simplifies our lamination and your woodworking, giving you the confidence to create with ease. To learn more visit duramar.com
